

Configuración si no detecta el cable

https://www.reddit.com/r/OculusQuest/comments/futphw/linux_mint_193_tricia_warning_no_permissions_adb/

```
sudo apt install adb
```

Had to create a rule /etc/udev/rules.d/50-oculus.rules that reads:

```
SUBSYSTEM="usb", ATTR{idVendor}=="2833", ATTR{idProduct}=="0186",  
MODE="0660" group="plugdev", symlink+="ocquest%n"
```

```
sudo adb kill-server  
sudo adb start-server
```

```
sudo adb devices
```
